

ACCESSORIES COMMON TO RAMBO S5 & RAMBO S2000 WORK VEHICLES

REAR IMPLEMENT MOUNTING PLATE

PART NUMBER	DESCRIPTION
PP 001C	REAR IMPLEMENT MOUNTING PLATE (ideal for irrigation/sprinkler pump)

ELECTRIC WINCH

PART NUMBER	DESCRIPTION
VE 001C	Predisposition for front mounting for electric winch (<u>to be ordered as initial equipment</u>)
VE 002C	ELECTRIC WINCH

REAR HYDRAULIC LIFT (WITH 2 PISTONS)

PART NUMBER	DESCRIPTION
SI 001C	Predisposition for cantilever mounting (chassis mounting only) <u>to be ordered as initial equipment</u> N.B. THE VEHICLE MUST BE SPECIFIED WITH A REAR PTO
SI 002C	REAR HYDRAULIC LIFT WITH 3-POINT LINKAGE (WITH 2 PISTONS) - load capacity 300kg
SI 003C	REMOVABLE REAR LIGHT BAR with electrical system

SALT/GRIT SPREADER

PART NUMBER	DESCRIPTION
SS 001C	Predisposition for cantilever mounting (chassis mounting only) <u>to be ordered as initial equipment</u> N.B. THE VEHICLE MUST BE SPECIFIED WITH A REAR PTO
SS 002C	SALT- or GRIT-SPREADER mounted on an oscillating arm (capacity 300 kg) with cantilever mounting operated by the power take-off
SS 003C	Predisposition for hydraulic system for salt-spreader or grit-spreader (<u>to be ordered as initial equipment</u>)
SS 004C	SALT-SPREADER or GRIT-SPREADER with hydraulic motor transmission, with control pushbutton panel (<u>for fitting to pick-up body</u>)

ELECTRIC CRANE (ON LOAD BED)

PART NUMBER	DESCRIPTION
GR 001C	Predisposition for electric crane (<u>to be ordered as initial equipment</u>)
GR 002C	ELECTRIC CRANE with jointed arms

ACCESSORIES COMMON TO MINI PANTERA, PANTERA & LINEA WORK VEHICLES

SNOWPLOUGH

PART NUMBER	DESCRIPTION
LM 001A	Hydraulic system for snowplough, with pump, 4-way (including one floating) electro-hydraulic distributor valve, 4 quick connectors, push-button panel (to be ordered as initial equipment)
LM 002A	Predisposition for front blade (chassis mounting only)
LM 002A-1	Removable front plate for snowplough blade (type to be specified in initial order).
LM 003A	SNOWPLOUGH BLADE, with anti-impact system, double-parallelogram front mounting with rapid connector on plate

SALT/GRIT SPREADER

PART NUMBER	DESCRIPTION
SS 001A	Predisposition for cantilever mounting (chassis mounting only) to be ordered as initial equipment N.B. THE VEHICLE MUST BE SPECIFIED WITH A REAR PTO
SS 002A	Mechanical SALT- or GRIT-SPREADER mounted on an oscillating arm (capacity 400 kg) with cantilever mounting operated by the power take-off
SS 003A	Predisposition for hydraulic system for salt-spreader or grit-spreader (to be ordered as initial equipment)
SS 004A	SALT-SPREADER or GRIT-SPREADER with hydraulic motor transmission, with control pushbutton panel (for fitting to pick-up body)
SS 005A	Speed reducer/direction reverser for rear PTO (necessary for mechanical salt/grit spreader)

BACKHOE*

PART NUMBER	DESCRIPTION
RE 001A	Predisposition for cantilever mounting (chassis mounting only) to be ordered as initial equipment N.B. THE VEHICLE MUST BE SPECIFIED WITH A REAR PTO
RE 002A	BACK-HOE with central jack for 180° or 360° rotation, 250 mm bucket, excavation depth 1900 mm, with hydraulic stabilisers.

* EXCLUDING FOR MINIPANTERA

BRUSHCUTTER*

PART NUMBER	DESCRIPTION
DE 001A	Predisposition for cantilever mounting (chassis mounting only) to be ordered as initial equipment N.B. THE VEHICLE MUST BE SPECIFIED WITH A REAR PTO
DE 002A	Predisposition for hydraulic system for brushcutter arm (to be ordered as initial equipment)
DE 003A	Hydraulic BRUSHCUTTER with system for automatic levelling with the ground, rotor rotation reverser, hydraulic shock absorber, max extension 3200 mm, weight 300 kg, head angle 190°.

* EXCLUDING FOR MINIPANTERA

ELECTRIC WINCH

PART NUMBER	DESCRIPTION
VE 001A	Predisposition for front mounting for electric winch (to be ordered as initial equipment)
VE 002A	ELECTRIC WINCH

ACCESSORIES COMMON TO MINI PANTERA, PANTERA & LINEA WORK VEHICLES

HYDRAULIC CRANE*

* EXCLUDING FOR MINIPANTERA

PART NUMBER	DESCRIPTION	PRICE
GR 001A	Predisposition for crane mounting between cab and body (<u>to be ordered as initial equipment</u>)	
GR 002A	Predisposition for hydraulic system for crane (<u>to be ordered as initial equipment</u>)	
GR 003A	HYDRAULIC CRANE with jointed arms, side-mounted controls, manually-operated stabilisers, slide shoes.	

ELECTRIC CRANE (ON LOAD BED)

PART NUMBER	DESCRIPTION	PRICE
GR 001A	Predisposition for electric crane (<u>to be ordered as initial equipment</u>)	
GR 002A	ELECTRIC CRANE with jointed arms	

STREET SWEEPER

* EXCLUDING FOR MINIPANTERA

PART NUMBER	DESCRIPTION	PRICE
SP 001A	Hydraulic system for sweeper, with pump, 5-way (including one floating) electro-hydraulic distributor valve, 4 quick connectors, pushbutton panel (<u>to be ordered as initial equipment</u>)	
SP 002A	Predisposition for front plate (chassis mounting only)	
SP 002A-1	Removable front plate for snowplough blade (<u>type to be specified in initial order</u>).	
SP 003A	WATER-SPRAYING HYDRAULIC SWEEPER WITH COLLECTION HOPPER, built-in water tank, floating central brush + side brush(es), water jet to keep dust down, rubber wheels on pivoting support.	

REAR IMPLEMENT MOUNTING PLATE

PART NUMBER	DESCRIPTION	PRICE
PP 001A	REAR IMPLEMENT MOUNTING PLATE (ideal for irrigation/sprinkler pump)	

REAR HYDRAULIC LIFT (WITH 2 PISTONS)

PART NUMBER	DESCRIPTION	PRICE
SI 001A	Predisposition for cantilever mounting (chassis mounting only) <u>to be ordered as initial equipment</u> N.B. THE VEHICLE MUST BE SPECIFIED WITH A REAR PTO	
SI 002A	REAR HYDRAULIC LIFT WITH 3-POINT LINKAGE (WITH 2 PISTONS) - load capacity 300kg	
SI 002A-1	REAR HYDRAULIC LIFT WITH 3-POINT LINKAGE (WITH 2 PISTONS) - load capacity 500kg	
SI 003A	REMOVABLE REAR LIGHT BAR with electrical system	

ACCESSORIES COMMON TO LINEA SUPER, LEGEND & MITHOS WORK VEHICLES

SNOWPLOUGH

PART NUMBER	DESCRIPTION
LM 001B	Hydraulic system for snowplough, with pump, 4-way (including one floating) electro-hydraulic distributor valve, 4 quick connectors, push-button panel (to be ordered as initial equipment)
LM 002B	Predisposition for front blade (chassis mounting only)
LM 002B-1	Removable front plate for snowplough blade (type to be specified in initial order).
LM 003B	SNOWPLOUGH BLADE, with anti-impact system, double-parallelogram front mounting with rapid connector on plate

SALT/GRIT SPREADER

PART NUMBER	DESCRIPTION
SS 001B	Predisposition for cantilever mounting (chassis mounting only) to be ordered as initial equipment N.B. THE VEHICLE MUST BE SPECIFIED WITH A REAR PTO
SS 002B	Mechanical SALT- or GRIT-SPREADER mounted on an oscillating arm (capacity 400 kg) with cantilever mounting operated by the power take-off
SS 003B	Predisposition for hydraulic system for salt-spreader or grit-spreader (to be ordered as initial equipment)
SS 004B	SALT-SPREADER or GRIT-SPREADER with hydraulic motor transmission, with control pushbutton panel (for fitting to body)
SS 005B	Speed reducer/direction reverser for rear PTO (necessary for mechanical salt/grit spreader)

BACKHOE*

PART NUMBER	DESCRIPTION
RE 001B	Predisposition for cantilever mounting (chassis mounting only) to be ordered as initial equipment N.B. THE VEHICLE MUST BE SPECIFIED WITH A REAR PTO
RE 002B	BACK-HOE with central jack for 180° or 360° rotation, 250 mm bucket, excavation depth 1900 mm, with hydraulic stabilisers.

BRUSHCUTTER*

PART NUMBER	DESCRIPTION
DE 001B	Predisposition for cantilever mounting (chassis mounting only) to be ordered as initial equipment N.B. THE VEHICLE MUST BE SPECIFIED WITH A REAR PTO
DE 002B	Predisposition for hydraulic system for brushcutter arm (to be ordered as initial equipment)
DE 003B	Hydraulic BRUSHCUTTER with system for automatic levelling with the ground, rotor rotation reverser, hydraulic shock absorber, max extension 3200 mm, weight 300 kg, head angle 190°.

ELECTRIC WINCH

PART NUMBER	DESCRIPTION
VE 001A	Predisposition for front mounting for electric winch (to be ordered as initial equipment)
VE 002A	ELECTRIC WINCH

ACCESSORIES COMMON TO LINEA SUPER, LEGEND & MITHOS WORK VEHICLES

HYDRAULIC CRANE*

PART NUMBER	DESCRIPTION
GR 001B	Predisposition for crane mounting between cab and body (<u>to be ordered as initial equipment</u>)
GR 002B	Predisposition for hydraulic system for crane (<u>to be ordered as initial equipment</u>)
GR 003B	HYDRAULIC CRANE with jointed arms, side-mounted controls, manually-operated stabilisers, slide shoes.

ELECTRIC CRANE (ON LOAD BED)

PART NUMBER	DESCRIPTION
GR 001B	Predisposition for electric crane (<u>to be ordered as initial equipment</u>)
GR 002B	ELECTRIC CRANE with jointed arms

STREET SWEEPER

PART NUMBER	DESCRIPTION
SP 001B	Hydraulic system for sweeper, with pump, 5-way (including one floating) electro-hydraulic distributor valve, 4 quick connectors, pushbutton panel (<u>to be ordered as initial equipment</u>)
SP 002B	Predisposition for front plate (chassis mounting only)
SP 002B-1	Removable front plate for snowplough blade (<u>type to be specified in initial order</u>).
SP 003B	WATER-SPRAYING HYDRAULIC SWEEPER WITH COLLECTION HOPPER, built-in water tank, floating central brush + side brush(es), water jet to keep dust down, rubber wheels on pivoting support.

REAR IMPLEMENT MOUNTING PLATE

PART NUMBER	DESCRIPTION
PP 001B	REAR IMPLEMENT MOUNTING PLATE (ideal for irrigation/sprinkler pump)

REAR HYDRAULIC LIFT (WITH 2 PISTONS)

PART NUMBER	DESCRIPTION
SI 001B	Predisposition for cantilever mounting (chassis mounting only) <u>to be ordered as initial equipment</u> N.B. THE VEHICLE MUST BE SPECIFIED WITH A REAR PTO
SI 002B	REAR HYDRAULIC LIFT WITH 3-POINT LINKAGE (WITH 2 PISTONS) - load capacity 300kg
SI 002B-1	REAR HYDRAULIC LIFT WITH 3-POINT LINKAGE (WITH 2 PISTONS) - load capacity 500kg
SI 003B	REMOVABLE REAR LIGHT BAR with electrical system
